

PROFESSIONAL
COSMETICS
FOR INDOOR
TANNING

ABOUT OUR BRAND

Soleo is the first Polish professional brand of tanning cosmetics created especially for indoor tanning. It has been the leader of the indoor tanning market for 17 years. The Soleo brand is sold on 30 markets in Europe, Asia and the Middle East. Effectiveness and safety of our products has been confirmed by certified laboratories and professional dermatologists.

ABOUT TANNING

Our skin turns darker when the amount of melanin (natural skin pigment) increases under the influence of the UV radiation. Melanin's primary function is protective – it prevents UV light from penetrating into the deeper skin layers. It takes between 48 and 72 hours for tan to appear.

COSMETICS FOR INDOOR TANNING

Professional products available in tanning salons. They allow you to get a quick tan and keep your skin in excellent condition. The products contain bronzing substances, for example DHA, plant extracts, beta-carotene or erythrulose, as well as accelerators such as tyrosine and hemp seed oil.

TANNING RULES

- Use cosmetics which were specially created for this purpose
- Make sure your eyes are fully protected – always use protective goggles
- Do not prolong the tanning session – tan for shorter time, but more often

INDOOR TANNING PRODUCTS & REGULAR TANNING PRODUCTS

In tanning salons, the amount of UV radiation and the duration of tanning are strictly controlled. The cosmetics designed for indoor tanning are meant to:

- accelerate the creation of healthy and lasting tan
- help you maintain good skin condition for a long time
- use 100% of the tanning time

On the other hand, there is no way of controlling the strength of UV light or even tanning time when sunbathing outside. This is why cosmetics which are meant to be used on the beach focus on blocking the effects of UV radiation on skin and slowing the tanning process.

FACE BRONZER

Bronzer especially designed for facial skin

Quick, brown tan with regenerating
baobab oil.
Scent: tropical fruit.

15ml

FACE TAN

Anti-wrinkle tanning accelerator for face

Natural tan with anti-aging collagen.
Smooth skin, anti-aging effect.
Scent: fresh melon.

50ml/15ml/5ml

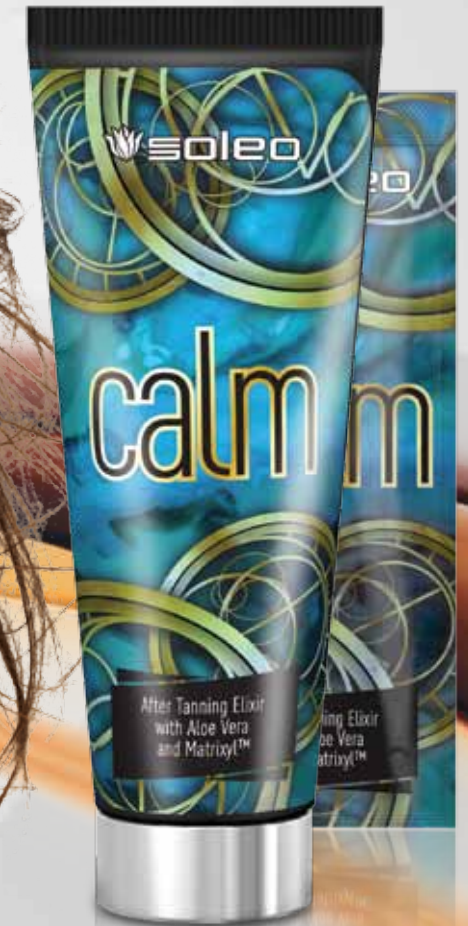

LEGS

Oxygenating bronzer for legs

Quick, brown tan for legs which don't tan easily.
Contains thermal ingredients which strengthen
the tanning effect.
Scent: jasmine with orchid.

135ml/10ml

Skin which is cared for on everyday basis tans more quickly
and easily, and the resulting tan is beautiful golden shade
of brown.

CALM

After tanning elixir

Daily moisturising care which helps to prolong the
results of tanning. Contains hemp oil which helps to
preserve the tan and regenerative complex Matrixyl.
Scent: black violet.

200ml/15ml

NEW

COLLAGEN ACCELERATOR

Rejuvenating tanning accelerator

Helps to achieve quick and natural tan.
Contains anti-ageing collagen, as well as gardenia and hemp oil. Makes your skin firm and smooth.
Scent: summer island.

200ml/15ml

PURE

Moisturising tanning accelerator

Natural tan for sensitive skin.
Contains moisturising aloe and rejuvenating complex Matrixyl.
Scent: green tea.

200ml/15ml

SURF

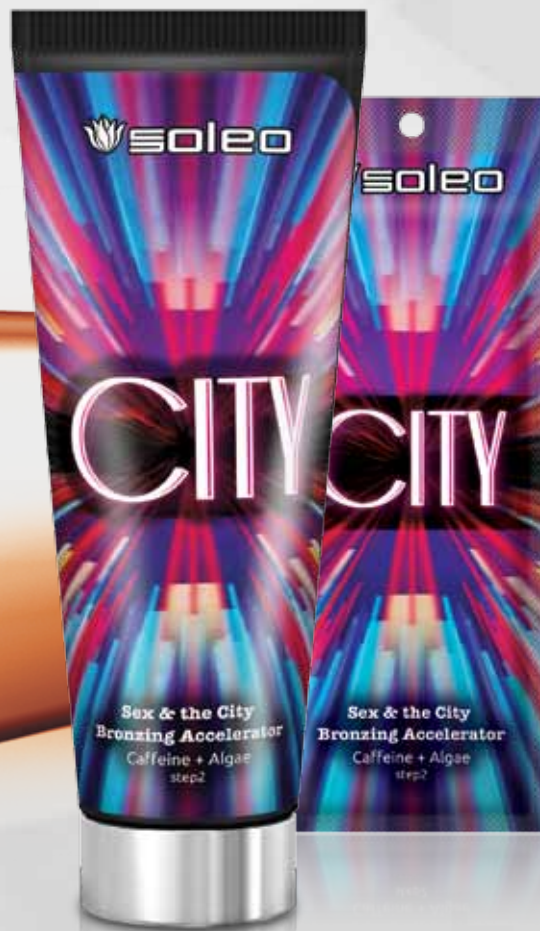

Regenerating tanning accelerator

Natural tan and strong regeneration effect for sensitive skin. Contains moisturising aloe, raspberry extract and soothing panthenol.
Scent: oceanic freshness.

200ml/15ml

Make use of tanning accelerators!
Using accelerators allows you to achieve tan quicker and makes it last longer.

Combining bronzer and tanning accelerator guarantees natural brown, long-lasting and quick tan.

CITY

Tanning accelerator with bronzer effect

Immediate effect for lightly tanned skin. Contains slimming caffeine and rejuvenating algae. Scent: sensual blueberry.

200ml/15ml

GOLD

Accelerator with bronzer and gold particles

Quick tan and a glamorous result. Contains vitamin E, gentle bronzer and gold particles. Scent: sunny summer.

200ml/15ml

CAPPUCCINO

Natural bronzer

Natural brown colour and firm skin. Contains slimming caffeine and a complex of natural bronzers. Scent: caramel latte.

150ml/15ml

Medium-strength and strong bronzers which help to achieve intense tan and, at the same time, help to keep the skin in excellent condition.

BLACK ESPRESSO

Natural strong bronzer

Deepens your tan and makes the skin firmer.
Contains slimming caffeine and a complex of natural bronzers.
Scent: ground arabica coffee.

150ml/15ml

TOTAL BRONZER

Strong bronzer

Helps to achieve well cared for skin which tans quickly.
Contains regenerative Abyssinian oil.
Scent: macadamia cream.

150ml/15ml

BLACK BRONZER

Very strong bronzer

Very tanned and well-cared for skin.
Contains nourishing macadamia oil.
Scent: blueberry sherbet.

150ml/15ml

Scent: lavender.

100ml/15ml

BENEFITS OF TANNING

- Attractive, healthy appearance
- Control over tanning
- Better mood – tanning releases endorphins, known as happiness hormones
- Increased synthesis of vitamin D
- Lowered sensitivity to sunlight

DO NOT FORGET!

Always use professional products in tanning salons.

Tanning is from 40 to even 60% less effective if no cosmetics are used during the process.
