

# VEGAZ

**Not for Gamblers.  
For Winners.**

# MEGA. VEGAZ.

The Luxura VEGAZ is superb in both design and dimensions! Every single detail of this premium product is well considered, newly designed and perfectly amplifies the other details.

Innovative light technology, breathtaking design and sensational quality, that is VEGAZ. Technical development resulted in an amazing energy efficiency. Smart innovations upgraded the well appreciated features, such as SoundAround with Bluetooth, Climate Control and IP Control 2. VEGAZ is MEGA, by maximum in terms of size, as well by maximum performance.

AN LED DRIVING SOCIETY

VEGAZ

LUXURA VEGAZ 9200 PURE INTEL  
UV-LED TANNING BED

# LED there

## be light

VEGAZ definitely owns the world premiere of **UV-LED technology** for high end tanning beds. Especially developed for a massive increase in performance in the decisive light spectrum. The **VEGAZ UV-LED TANNING BOOSTER** sets a totally new level of facial tanning: an immediately visibly and improved tanning effect. An additional unique feature of this technical innovation: the **LED light** is distributed completely evenly and optimally throughout the facial area, thanks to a unique reflector housing.

# Right back

## Shoulder tanner +

VEGAZ solves every tanning challenge you've ever known, including the body parts which are more difficult to tan. Perfectly incorporated into the design the **integrated shoulder tanner** works along with the new visual and functional highlight on the VEGAZ: the **neck reflector area**. Perfect tanning performances in the neck & shoulder area guaranteed.

# IP Control 2

## The winning system

This **Intelligent Power Control** system guarantees the optimal UV exposure of  $0.3 \text{ W/m}^2$ , as prescribed by EU regulations, throughout the entire lifespan of the lamps. IP Control extends the lifespan of the lamps and ensures consistent optimum output throughout the entire life cycle. Besides that, the new IP Control 2 system makes it possible to **control each lamp individually**, so lamps which are farther from the body are supplied with more power to compensate for the distance. This ensures that every part of the body receives the same  **$0.3 \text{ W/m}^2$  of UV exposure**. Moreover, this results in energy savings of up to 25 % for operation of the lamps.

# All In

## Premium Maxlight

Lamp innovation is taken to a higher level with **Maxlight PREMIUM lamps**, which are pioneering in every way. Thanks to the use of special blue phosphor, PREMIUM lamps create a deep blue light within an inventive light spectrum with optimum **UVA and UVB balance**. This results in an extraordinary intense pigmentation. In addition, Maxlight PREMIUM lamps produce a technically superior UV balance over the entire length of the lamp, for a beautiful evenly tan.

# Think twice

## The light combination

VEGAZ combines the innovative **Maxlight PREMIUM Blue** lamps with **PREMIUM Red** lamps, combining intense tanning with a touch of skin care. The light spectrum and positioning of the blue and red lamps are perfectly matched to ensure a beautiful, intense tan.

LIGENCE  
TANNING BOOSTER

# BIG DATA, big Comfort

Thanks to the **smart innovation** of a unique new Online-Interface, wireless communication with VEGAZ is the new standard. Alongside software updates, the **MyLuxura Online-Portal**, especially developed for this purpose, makes a great deal of data available within a secure log-in area. This is of invaluable worth for service questions, problem-free operational use and analysis. All significant data is ready to be downloaded immediately for unit diagnosis. **Available wherever you are**, your data is presented in a clear

overview of stats. MyLuxura enables every Luxura Vegaz to connect to internet over WLAN or LAN. It also allows technical staff to read-out the sunbed's status and set parameters remotely when standing next to the sunbed by using local myLuxura. Even without the need of an internet connection.

# Vegaz- tastic Entertainment

## Sound Around Feeling

VEGAZ now lets you play **wireless music from any smartphone via Bluetooth**.

There is even a special smartphone spot in the stunning design! Just place the phone at the head end and you're ready to go. **The intuitive Luxura display** makes selecting music and volume very easy. Naturally, VEGAZ provides stacks of full 3D sound and a WLAN connection for playing internet radio, etc.

In addition, the **integrated Sound Around Plus** includes two pre-installed SD cards, providing two extra internal music channels. SoundAround Plus comes standard with **My MP3 and SmartVoice**. Pump up the volume!

**What do you want?** Your tanning comfort is not only your choice with selecting music, with VEGAZ you can **control wind & climate as well**. Set a preferred temperature for the whole tanning session, select refreshing extras while tanning and control the amount of wind. Thanks to **Qsens**, you can enjoy a refreshing water vapour mist, while **Xsens III** scintillates your senses with a choice of **3 beautiful scents**.

# Blown away
